ABOUT ME

Senior Product Designer with 10+ years of experience designing SaaS, cybersecurity, and enterprise products. Experienced in **designing AI-powered products** and crafting intuitive AI-driven user experiences. I combine deep product thinking with **AI-first design methodologies and modern AI tools** to accelerate innovation and deliver high-impact product outcomes.

EXPERIENCE

Seemplicity

Oct. 2024 – Present

LEAD PRODUCT DESIGNER

Remediation Operations

- Owned **end-to-end system UX** — from discovery and research through design, developer collaboration, testing, and measurement.
- Applied an **AI-driven mindset** by using Claude Code, Figma Make, and other AI tools to create **interactive prototypes with realistic data**, explore and evaluate multiple design alternatives, accelerate validation, and improve UX decision-making
- Defined **information hierarchy** and user journeys for **complex, data-intensive products**, translating large data volumes into **clear, usable flows and actionable signals**.
- Took a holistic platform view to identify gaps, uncover opportunities and design improved workflows across the system.

CYE

Oct. 2019 – Oct. 2024

LEAD PRODUCT DESIGNER

Cyber Risk Quantification

- Designed the **Hyver platform (CRQ) UX & UI from scratch** — full structure from concept to production, including visual language and design system.
- Owned the full feature lifecycle: prototypes, wireframes, icons, visual assets, usability tests with internal and external customers.
- Monitored and improved success KPIs using **Heap analytics**, driven by research insights and usability findings.
- Maintained a **unified UX & UI language** across product and marketing in close collaboration with the marketing team.
- Collaborated cross-functionally with PMs, engineering, QA, customer success, support, and Cyber Operations.
- Led the **organisation-wide adoption of Figma and Heap.io** across Product, R&D and Customer Success.
- Management experience: directly led one team member.

CYMPIRE

Feb. 2018 – Oct. 2019

PRODUCT DESIGNER — SOLE DESIGNER

Cyber Security Training

- Led all aspects of user experience and visual design as the sole product designer, defining the product's entire design foundation.
